Re: Simson Maxwell Quebec

As of April 15, 2011 we completed a deal to sell our Quebec business to Marindustrial. The closing date for the transaction is May 2, 2011. Simson Maxwell has operated in Quebec since 2002 and after almost 10 years we decided to transition the business to a long standing Quebec based business. As we celebrate our 70th year, we are refocusing all of our efforts on the expanding Western Canadian Market. Marindustrial has been a Deutz distributor in the maritime provinces for many years and in saying this, we believe our Quebec business will be in good hands.
